

# TABLE OF CONTENTS

## HYDROLOGICAL SCIENCE AND TECHNOLOGY

Volume 15 Number 1-4

	<i>page</i>
<b>A Coupled Neural Network and Consecutive Layer Identification System for Stratigraphic Layer Identification</b>	
<i>J.M. Sullivan Jr. and Reinhold Ludwig</i> .....	1
<b>Application of Integrated Hydrologic Models for Wellfield Management and Ecosystem Protection</b>	
<i>E.Z. Hosseinipour and D.J. Polmann</i> .....	10
<b>Optimized Regional Operations Plan for Wellfield Management</b>	
<i>N. Wanakule and D.J. Polmann</i> .....	17
<b>Performance Evaluation at the Moffett Field and Department of Defense Permeable Barrier Sites</b>	
<i>C. Reeter, D. Gavaskar, N. Gupta and B. Sass</i> .....	24
<b>The Use of Isotope Ratios to Estimates of Anthropogenic Pollution in Ground Water</b>	
<i>Boris I. Pissarsky, Sergei B. Brandt and Ivan S. Brandt</i> .....	31
<b>Phytoremediation of Soil Radon</b>	
<i>B.A.G. Lewis and J.A. Kozak</i> .....	41
<b>Evolution of Hydrochemical Facies in the Mimbres Basin Aquifer System: A Transboundary Resource</b>	
<i>B.J. Hibbs, M.M. Lee and J.W. Hawley</i> .....	52
<b>Ground-Water Quality Along a Flowpath in a Surficial Outwash Aquifer in the Upper Mississippi River Basin – the Influence of Land Use</b>	
<i>W.J. Andrews, J.R. Stark, A.L. Fong and P.E. Hanson</i> .....	66
<b>Migration of Strontium-90 Within the Borschi Watershed Near Chernobyl, Ukraine</b>	
<i>R. Freed, L. Smith and D. Bugai</i> .....	76
<b>Contaminants Modeling with TOX15</b>	
<i>C. Gualieri</i> .....	87
<b>Combining Active and Passive Techniques for the Remediation of an Acrylonitrile Release in the Subsurface</b>	
<i>B.E. Huntsman, C.A. Staples and T.F. Boyle</i> .....	96
<b>Perspectives on the Influence of Altering Surface Cover Conditions on Underlying Ground-Water Systems</b>	
<i>J.A. Johnson, A. O'Brien and M.A. Parcher</i> .....	106
<b>Hydrologic Effects of Cottonwood Trees on a Shallow Aquifer Containing Trichloroethene</b>	
<i>S.M. Eberts, C.W. Schalk, J. Vose and G.J. Harvey</i> .....	115
<b>Geochemical Effects of Cottonwood Trees on a Shallow Aquifer Containing Trichloroethene</b>	
<i>S.A. Jones, R.W. Lee and E.L. Kunians</i> .....	122
<b>Effects of Impurities Associated with Aluminosilicates on Arsenic Sorption and Oxidation</b>	
<i>Z. Lin and R.W. Puls</i> .....	130
<b>Reductive Detoxification and Immobilization of Chromate Present in Soils</b>	
<i>F.A. Khan and R.W. Puls</i> .....	138
<b>Prediction of Contaminant Plume Movement from the Deep-Well Injection of Liquid Radioactive Waste (LRW) at the Krasnoyarsk Disposal Site</b>	
<i>V.I. Malkovsky, A.A. Pek, V.I. Velichkin and F.L. Parker</i> .....	145
<b>Modeling Turbulent Solute Transport in a Cavernous Aquifer</b>	
<i>M.A. Medina, Jr., Y. Li and D-M. Meng</i> .....	172
<b>GIS-Based Conceptual Hydrogeological Data Models for Ground Water Modeling in Glacially Formed Mesoscale Watersheds</b>	
<i>C. Merz, J. Steidl and R. Dannowski</i> .....	191
<b>Modeling Aquifer Flow Capacity and Ground-Water Pathlines In a Chihuahuan Desert Basin</b>	
<i>B.J. Hibbs</i> .....	200
<b>Cost, Quality and Risk Management: Contaminated Ground Water Treatment and Reuse for Potable Water Supply</b>	
<i>B. Kent, C. Hardcastle and N. Colby</i> .....	213

<b>A Quality Assurance System for Environmental Surveillance in Florida</b>	
<i>A.N. Shahane</i> .....	221
<b>New Developments in Ground Water Monitoring and Measurements</b>	
<i>D.M. Crumblin</i> .....	229
<b>Reducing Hydrologic Impacts of Mines in Mountain Areas of the Western United States</b>	
<i>R. Kattelman</i> .....	239
<b>A Simple Mathematical Model for Infiltration BMP Design</b>	
<i>D. Wang</i> .....	248
<b>Simulation of Multi-Scale Environmental Impacts Using the EDYS Model</b>	
<i>W.M. Childress and T. McLendon</i> .....	257
